

DOINGS OF THE DAY.

A Condensed Review of Events Transpired and Transpiring

In and About Canton—Bits of News Gathered from All of the Many Sources Found in a Progressing, Thriving City.

Misses Mary Henry, Louisa Kieffer and Louisa Zimber Sunday at Canal Fulton.

By appearances Canton contractors scooped in almost everything at Carrollton except the soil.

There were 50 deaths in the city during the month of April, 30 of them being caused by measles.

Growing wheat is looking up, and peach, plum and cherry trees are getting in full bloom.

Mr. Joseph Henry, Mrs. Margaret Hatter and Mrs. Louis Engel spent yesterday with relatives and friends in and around Malvern.

The grounds are being cleaned at the lake.

The street parade of Solis Bros' show next Friday will be a grand one.

Bennett & Monroes are biting the city. They open next Monday night.

Miss Mamie Hahn, of 127 East Tuscarawas street, leaves for Chicago, on an extended visit to friends and relatives.

A new horse disease has made its appearance among the horses in this city. Mr. W. S. Shertzer lost two by it last week.

Daniel Thedy and Clotha Gueler were married at the residence of the bride's parents by Squire Mark Wettsch Saturday.

The enterprising (?) Bop got "scooped" on the Carrollton fraud and then did the baby act by crying. Poor thing, how it must have hurt her.

Mr. John M. Faber will soon open a fine grocery and provision house in the room lately vacated by J. A. Meyer, the jeweler, on North Market street.

A little son of Fritz Chopard had several teeth kicked out by a horse yesterday. It was found, upon examination, that the jaw bone was also fractured.

A. S. Humberger, of Massillon, has purchased the extensive dry goods store of Paul J. Gamm, of Alliance, and will in all probability move it to Massillon.

The work of laying water mains on East Third street will soon be completed. Superintendent McKinney says he will have mains laid all over the city by the 1st of July.

The unexcelled, stupendous combination of circuses, menageries, museums and special and startling novelties gathered together in Solis Bros' great show, will be here Friday.

The Gilliam building, corner Market and Third streets, will be built back to Court street. The front on Market street will be used for store rooms and the rear portion for the shop.

John Miley, an old railroad hand, was killed at Alliance, Monday by being caught between the bumpers while coupling cars. It was instant death, crushing in his breast. Deceased leaves his wife and eight offspring.

Nelson Riddle, a dunsy gentleman of leisure, was very badly riddled with rain last night, and roosted in the city cage in consequence. The Mayor very kindly allowed him two hours in which to settle up his affairs in this city and seek new pastures. He has left us.

Mary Corey, the imbecile girl, daughter of Maria Corey, the housekeeper for Dan Winkelman, who now keeps a place in the Oak Grove neighborhood, and John Miller, a tramp, who had a knee hurt by the cars, have been sent by the Township Trustees to the Infirmary.

Charles B. Stover, who has just returned from California, where he has been living for some time, has accepted the position of clerk at the Barnett Hotel, made vacant by the resignation of Charles W. Martin. Mr. Martin commenced with Mr. Dueber at the Heights yesterday.

It is reported that an attempt had been made to set fire to the residence of Mr. Welsh, at No. 42 North Cherry, Sunday night, coal oil being used to saturate the woodwork. Two unknown persons, it is said, were seen in the neighborhood, but were frightened away before a match was applied.

Clement John Albaugh has gone to Youngstown to hold court, having exchanged seats with Judge Laube, who is holding court in New Philadelphia. The exchange was made because Judge Albaugh was formerly interested as an attorney in several cases which will come before the Tuscarawas county court.

There was a full attendance of the Commissioners of Stark and Columbiana counties at the meeting of the joint board held at the Children's Home yesterday. The joint board, however, transacted was the election of Hon. S. C. Bowman, of Massillon, as a trustee of the Home, to take the place of Mr. C. F. Ricks, whose term has just expired.

Mr. W. W. Anderson, one of the substantial, old reliable Democrats of the east end, has purchased the popular East Tuscarawas street saloon and restaurant known as the Empire from Mr. Charles Nist, and is now in possession of the establishment. Billy is a square man all through and will not be long in securing a host of friends in this city.

It involves the patent right of a post hole digger and \$5,000 damages. The attorney is Cray Bros., Fuller & Gallup."

W. M. Cox has resigned his position with the Adams Express Co., and will probably return to his old pastime as foreman in the lumber yard of J. R. Poyser & Son. The Adams Express Company loses the service of a good and efficient man. While with the company Mr. Cox made a large circle of friends among the business and manufacturing concerns, all of whom sincerely regret to see him leave the company.

Dr. Franklin Hudson's three-year-old colt ran away with him, while he was driving south on Walnut street at 2:15 o'clock this afternoon.

The horse started at Fifth street and a short distance south of Tuscarawas threw the doctor out and wrecked the buggy. The animal was stopped at Ninth street. Dr. Hudson was considerably bruised and had a leg injured. The horse had both hind legs badly out and lacerated.

Mr. Henry W. Kerch, who for two years past has had charge of the advertising department of the DEMOCRAT, has purchased the Express China Store of Mr. C. W. Warner, No. 33 East Tuscarawas street. The store is now being involved preliminary to the change. Mr. Kerch is an able and enterprising young business man and will conduct the business in a strictly first-class manner. Everything new and novel in the line of goods which he will carry will be on his counters as soon as it appears on the market.

Everyone will be welcome at the Bazaar and Mr. Kerch will give full value for everybody's money.

A LIZARD STORY.

The Slimy Reptile Found in a Curious Place.

The Carroll Chronicle of this week contains the following:

Mrs. George Moore, who lives on Baxter Ridge, five miles northwest of Carrollton, has led a miserable life for four months past with a live reptile of some sort in her bowels and stomach. Mrs. Moore is about 65 years of age and has reared a family of nine children, but she says she has suffered comparatively nothing until within the past four months since which time the reptile has been giving her very much trouble. She was a very large, fleshy woman, but has become reduced almost to a skeleton and would welcome death as a relief to her misery. The reptile, she thinks, is about four inches long, has a flat, snake-like head, and moves from the stomach to the lower bowels. Her wild look and suppressed terror as this monster travels through her body are pitiful to behold. At times they can catch it under the skin and hold it as long as the woman can stand its wiggling. It comes up into her stomach to feed, and when it drinks they can hear it "lap," "lap," very distinctly across the room—the woman being aware of every movement of her disagreeable companion. She has taken freely of medicine and purgatives but all to no avail—the reptile refusing to partake, leaving the stomach and entering the bowels when the woman takes inwardly any disagreeable potion. Mrs. Moore earnestly requests that her body be relieved of the reptile after her death. She has no means of knowing how the reptile got in to her stomach. The past four years she has not felt very well, but only for four months past has she been so ill as she has indicated.

REAL ESTATE OPTIONS.

Men Who Speculate on Wind and a Small Ante.

To the Disadvantage of Honest Investors

—What a Prominent Business Man Has to Say About the Effect It Will Have on the Boom.

Since the Dueber Works were secured to the city there has been going on a spec of real estate gambling, which solid business men and legitimate investors are beginning to fear. An enemy to the progress and substantial growth of Canton.

A wealthy and influential Cantonian, who has done much to bring about the present splendid boom, in conversation with a representative of the DEMOCRAT, expressed himself as very bitterly opposed to the option plan of handling real estate. He said that it was ten times worse than the Wall street gambling in stocks. The idea, he said, that a gang of windy gamblers can, for a few dollars, control valuable properties, and compel people who desire to locate in Canton, to pay exorbitant prices, is an outrage and should be stopped. Their method is to put up an insignificant sum of money for the "option" or privilege of purchasing a piece of property within a certain time. They never continued the gentleman, intend to become the owners, and could not raise money to make a straight purchase if they wanted to. Such operators have been a great curse to the oil and gas regions, the mining towns and growing places of the west. When the Dueber people commence coming here in earnest and begin looking for homes, every encouragement should be offered them. They should be treated fairly. They should have the privilege of choosing from owners, or legitimate real estate agents, without paying blood money to a lot of sharks.

The gentleman referred to said that he would shortly contribute an article on the subject over his own signature. He wanted the city papers to give it to them rough shod, and advise property owners to give no options to anybody. He expressed the opinion that if this wild cat business continued that Canton's boom would be as badly overdone as the oil and mining towns and that it would drop about as suddenly.

From a general inquiry among the business men the article met with similar expressions. This species of gambling is rapidly growing in the city and options on much valuable property have already been given.

ELTON ROSES.

A Fresh Batch of News From Our Regular Correspondent.

Shanklin & Douglass have gone to West Brookfield with their mill. Mr. Sander Harker, known in all our section as "Squid" Kridler, has given or bequeathed to E. A. Oberlin his valuable and extensive political and historical library. It is a noted gathering of early reminiscences, both general and local, which he desires to be preserved by some younger man than he, who can in a manner perpetuate and make useful the information gained therefrom. The humorous letters of Pittsfieldbrenner in your late issues of the DEMOCRAT, have been highly appreciated by our people who speak in the brogue in which some of their own friends gossip. On last Sabbath evening quite a religious event took place at Bethel, of Upper Sugar Creek. Nineteen of last winter's converts were immersed according to the rites of the church. Quite a gathering witnessed the ceremony. Stands' Sunday School was organized last Sabbath for the ensuing year. Good, efficient officers were selected, and good work will no doubt be done.

A Grand Record.

We call your attention to the advertisement of a remedy which has stood the test of more than a half century with increasing popularity and is universally admitted to have no equal as a remedy for the numerous diseases originating in a disordered liver, such as dyspepsia, biliousness, constipation, headache, colic, etc. Simmons' Liver Regulator is simple and harmless, purely vegetable, and can be safely and advantageously used under any circumstances. It acts mild-

ly and effectually and is especially valuable as a family medicine, which position it holds in so many homes. We do not know another preparation which can bring forward such indisputable proofs from heads of families and those holding the highest official and social positions. Keep Simmons' Liver Regulator in your house; it will reduce your doctor's bills and insure for your families health and happiness. It seems strange, but it is nevertheless true, that the world contains people who will try to imitate, counterfeit or substitute something else for a genuine, meritorious article, even to the extent of making a spurious medicine, risking life and health and thereby endeavoring to look that they are only the genuine. Zeilin & Co. have used the precaution to put on the front of each wrapper their trade mark of a curved Z entwined around the mortar, and on the side the signature of J. H. Zeilin & Co. Frauds should always be denounced and the true remedies only upheld.

CALLED ON BY AN ASSASSIN.

Cold Blooded Attempt to Murder Marshal Smith at Doylestown.

DOYLESTOWN, O., May 3.—Last night an attempt was made to assassinate Town Marshal McDowell Smith. After he had retired a large building was struck through its bed room window. Smith jumped up and ran out with his revolver and met the assassin, who shot at the marshal. The ball passed through the seam of his trousers. The would-be murderer succeeded in getting away, but not until the marshal had fired at him.

The loss of the building is about \$200, and on the machinery, finished chairs and material about \$1,300; fully insured. Dr. Young is out of the city on a business trip at present.

CARROLL'S COURT HOUSE.

The Investigating Committee's Report All the Talk.

The "Democrat" in Great Demand and Sent with a Heliograph—What Rev. Kennedy Says as to Officials and Ex-Officials.

CARROLLTON, O., May 3, 1887. EDITOR DEMOCRAT.—We have read the DEMOCRAT of the 24th and 25th with interest. It is the only paper containing any account of the investigating committee's report of court house and jail affairs.

Your last correspondent makes a bold defense of his side of the case, but he does not represent the sentiments of a large majority of our people. There has been fault—deep and villainous—pertaining to every part of the construction and furnishing of the court house and the guilty ones are now uncovered and about to be brought to judgment and punishment. "The d-d spots" will not wash out.

Take for instance the stonework of the second story and compare the work done with the specifications. Mr. John McDonald, a sober, experienced workman, and Mr. Herman Frederick, of your city, both of whom worked on the court house and jail, testified before the committee, exposing the delinquency of the contractor, showing wherein he had slighted the stone work and turned it off carelessly half finished. The specifications call for the facing stone to be not less than eight inches thick. They testify, and numerous other witnesses will testify, that some of them were thin, inferior and crooked that they had to be pruned in the wall while being laid.

The full report of the committee's findings will be published in the county papers this week and I assure you I will raise a perfect torrent of indignation throughout the county, and it is hard enough now. Rev. S. I. Kennedy, one of the investigators, says the testimony is even worse than the findings of the committee, and said publicly this evening that he had no doubt it would, were prosecuted, result in sending six men to the State penitentiary. These men he named as follows:

L. M. Barrack, County Auditor. John Skeels, Ex Sheriff. John Sterling, Janitor. William Davis, county Commissioner. Z. H. Kays, Ex Commissioner.

Charles J. Deekman, of Malvern, bidder for furniture contract.

A committee of rich farmers have concluded to ask Judge Nichols to call a special grand jury at once, and Olliv Cogoli says he will ask the judge to appoint two of the best attorneys in the district to assist the prosecuting attorney at the expense of the farmers, if necessary.

The judgment day has come and we ask the citizens to await results and defer judgment. CITIZEN.

THE CANTON Y. M. C. A.</
